Has the ability to correctly position the patients in antalgic posture

DOC DECOMPRESSION - E9011-B

Targeting with Axial Rotation and Lateral Flexion

90 Days of FREE clinical support from consultant, Dr. Bryan Hawley

NEW EVERY DAY PRICE
\$12,999

Take your Chiropractic practice to the next level with Pivotal Health Solutions DOC Decompression Table. The unique design of the new DOC table utilizes a state-of-the-art digital command center for specific vertebral targeting, separate lumbar and cervical decompression programming and continuous readout and graphing of treatment protocols. In addition, the digital command center also controls table elevation and rear flexion, all at the push of a button.

“My practice, treats exclusively acute and chronic disc pathology. We consider ourselves to be the best in the field at what we do, and our patients count on us to deliver results. That is why after looking at all other decompression tables we have chosen the DOC decompression table by Pivotal Health. Not only can we treat our patients supine or prone but also from various angles such as flexion, extension, lateral side bending, and even axial rotation! ”
