Lightly used Myovision 3G Wirefree Physiomonitoring System

It's a very valuable tool for use at screenings and during patient exams, both outside and inside the office, with the use of full spine scanning and ROM testing. They did not use the DynaVision, but were instructed that it was great for PI and W/C cases.

Includes:

- 3G Wirefree PhysioMonitor Base Receiver to seamlessly connect 5 Wirefree Devices
- 3G Wirefree DynaVision 4 Channel Dynamic sEMG Module
- 3G Wirefree FlexVision Dual Range of Motion Module w/ Charging Cable
- ScanVision Adaptive QuadraProbe Wirefree Static Scanning sEMG
- Electrodes and Lead wires for above monitors.

Dr. Paid over \$9,000.00 new (after the trade in). Asking for \$5500.00 or best offer.  
Can provide more pictures upon request.
