

Decompression Table

Take your Chiropractic practice to the next level with Eurotech's DOC Decompression Tables. The unique design of the new DOC table utilizes a state-of-the-art digital command center for specific vertebral targeting, separate lumbar and cervical decompression programming and continuous readout and graphing of treatment protocols. In addition, the digital command center also controls table elevation and rear flexion, all at the push of a button.

Lyflo Decompression Pak complements your therapy for total wellness. Visit www.lyflo.com for details.

E9011

Standard Features

The DOC list of standard features is impressive:

- Digital (DOC) Command Center which includes:
 - Specific Vertebral Targeting
 - Separate lumbar and cervical decompression programming
 - Continuous readout and graphing of treatment parameters
 - Interactive color display
- Pre-Programmed lumbar and cervical decompression protocols
- Customizable treatment protocols
- Traction Belting System - Can enhance restraint for optimal decompression. This helps the body create greater internal disc pressure which aids in the reduction of spinal problems.
- Built-in safety features
- User-defined treatment hold and relax times
- Real-time digital treatment tracking
- Table elevation
- Reference library - including patient setup and training materials
- CD player with AM/FM radio and headphones for patient relaxation
- Comprehensive Marketing package for a minimal 12 month fee.

Axial Rotation and Lateral Flexion can be done simply with the press of a button and manipulation of the guide bar at the rear of the pelvic section. The doctor or practitioner can move the flexing section to its proper position such as lateral flexion or axial rotation.

This is unlike other units that have a direct and straight pull only. In addition, this system comes with auto flexion capabilities.

Standard Table Dimensions

- Retracted length 77"
- Extended length 86"
- Max length with touch screen arm 92"
- Pelvic cushion width 27"
- Thoracic/Lumbar cushion width 24"
- Cervical cushion width 17"
- Hand pad to hand pad width 30"
- Hand pad to touch screen arm (max width) 44"
- Standard height to top of cushion (min) 21"
- Standard height to top of cushion (max) 29"
- Standard height to top of touch screen arm 36"

Options

- Printer
- Snap on upholstery covers
- Elevation foot pedal
- P-A Flexion foot pedal
- Slow Motor
- Black or white base
